

## Christmas by the River

Red Lolly are delighted to offer this atmospheric venue with wonderful views. The ball room was originally the Drill Hall, used by the RNR and RNVR when the ship was part of the Royal Navy fleet. The room is a spacious 2500 sq foot. with no columns, making it a remarkably versatile and enjoyable space on the Thames. Floor to ceiling south facing windows enable guests to look out directly out over the Thames creating an idyllic sunrise to sunset backdrop.

A venue that helps to ensure a party that you and your friends and colleagues will never forget.
