## *Red Lolly Christmas Theming:*

Themes we could install at this venue are listed below however.

**Traditional Winter Christmas:** With frosted Christmas Trees, Ice blue up lighting around the room, Icicles and spectacularly dressed tables and chairs. Also included or as an added option in several packages we would install to add to this theme and no doubt delight guests a white chocolate fountain with glittered dips such as fudge, Christmas tree marshmallows and strawberries.

**La Balle Masquerade:** Elegance and scandal would denote the decor with tables and chairs dressed using reminiscent shades and textures of the era. Props around the room could include mirrors, giant masks, pin spotted tables with candelabra centerpieces. Lighting would be installed with colour washes to complete the theme.

**Hollywood Oscars:** High glitz and glamour would be the tone set within the room. Tables would be dressed using sparking silver covers with sashes, table glitter and props such as mirror ball centerpieces and clapper boards and film reel. The room will have film and film star memorabilia around the edges to create an ambiance befitting Oscars. (please ask about upgrading this theme with an Award Ceremony for staff).

**Fire and Ice:** This theme pulls the traditional colours of Christmas today with all the excitement and exuberance of the fire using ambers and reds we'll offset with icy crystals and blues for a stunning effect
